

## I know you like that

Watch me do my thing babe  
I just wanna make you feel me  
Got you feeling like a real one  
You know I could be anything you want  
Baby slow down slow down  
Take a sit baby watch me take it down  
You know I ain't nothing regular  
Let me switch it up show you who we are  
I know you like that  
Give it to you like that  
Make you wanna taste that  
Turn around throw it right back  
I know you wanna touch it baby  
You thinking could I be your lady  
You a good boy, I could give you maybe  
Wanna see me take it off, I don't think you ready  
Do you want it fast or do you like it slow?  
Got my body shining like a pot of gold  
If you wanna hit it then let it go  
Sorry I ain't cheap you already know  
I know you like that  
Give it to you like that  
Make you wanna taste that  
Turn around throw it right back (REPEAT 1)
