

## **I'll get it right**

I don't think I like you  
Don't want to live like you  
You make me cry too  
Think I should leave you.  
Make me believe in  
what you are saying  
That I am your only, never be lonely, I'm just your trophy  
I'll get it right (repeat 4 times)  
I know men like you  
Who think that they can do  
Whatever they want to  
But I will survive you  
I faithfully waited  
Consuming your hatred  
Made my decision, releasing my vision  
This is the reason.  
I'll get it right (repeat 1 time)  
Explain to you, I aint gonna be your fool  
Your way is full of rules, its time to choose  
Its hard to be me when I|m being you  
Thats why I'm leaving and this time  
This time I'll get it right
