

Destiny

I know that I have it inside of me
That devil I call it destiny
I see the future clear (yeh)
So clear that I have no fear (yeh)
Open this door in front of me
Not fearing what was and is to be
There is no either or (no)
Cause this is what I am here for (yeh)
This is my my my
Destiny (repeat 1 bar)
I see the grammy's, the walk of fame
Sold out arena's they know my name
I have the wings to fly
My angels at my side
Think about it all the time
Only thing on my mind
No I don't have the time to waste to waste
These keys are calling my name
Telling me to play, forever, for always, forever, for always, ways ways
ways
Bring it up, bring it up
Bring it up let me here ya, Bring it Sydney be near ya
I think that it's time that I show ya
I think that it's time that you see it
Ain't gonna dream it but be it
This is my my my
Destiny (repeat 1 bar)
